Savitribai Phule Pune University

EXPERIENCE

Software Engineer

Sept-2021 - Present

Biz Secure Labs pvt. ltd. Pune

SKILLS

- | | |
|----------------------|-------------------------------|
| • PHP [3 Years] | • Payment Gateway [1 Years] |
| • MySQL [3 Years] | • Web Socket [3 Years] |
| • jQuery [3 Years] | • Rest API [3 Years] |
| • Ajax [3 Years] | • Redis Cache [3 Years] |
| • HTML5 [3 Years] | • Laravel v8+ [3 Years] |
| • CSS3 [3 Years] | • Bootstrap 5 [3 Years] |

PROJECTS

PROJECT 1: ITPRO MANAGEMENT

- Developed a Remote Employee Management System in Laravel, enhancing efficiency by **30%**.
- Collaborated with C++ developers to create a web-compatible executable, reducing development time by **25%**.
- Key features:
 1. Remote wallpaper changes, enhancing user engagement by **15%**.
 2. Full remote control, reducing downtime by **20%**.
 3. Real-time monitoring, improving compliance by **35%**.
 4. WebSocket for updates, enhancing feedback response times by **50%**.
 5. REST APIs and Redis cache for seamless communication and improved performance, reducing data retrieval time by **20%** and latency by **30%**.

PROJECT 2: EPS CHAT SYSTEM

- Developed an enterprise-level Chatting System for Windows using Laravel, enhancing team communication efficiency by **25%**.
- Implemented single sign-on (SSO) for secure user authentication, reducing login times by **30%**.
- Key features:
 1. Supported both group and single chat functionalities for improved collaboration.
 2. Utilized Redis cache for optimal performance, decreasing load times by **20%**.
 3. Integrated Pusher WebSocket for real-time updates, increasing user engagement by **40%**.
 4. Added Chrome notifications for instant alerts, boosting response rates by **15%**.
